

News About Your Neighborhood

DVM Utilities, a contractor selected by Bloomfield Township, will be performing sewer maintenance in the sanitary sewers located in the right-of way or utility easement adjacent to your home or business. **Work is expected to occur from December 2 and 3, 2024.** DVM will notify property owners affected by the work 24-48 hours in advance using a door-hanger notification. You will receive instructions to limit water usage (up to 12 hours) and instructions to prevent odors from entering your home on the day the work is performed.

For more information on how to limit odors from the work entering your home, please visit the Township's website: <https://bloomfieldtp.org/media/2w0fooux/reducing-sewer-odors.pdf>

You may experience a low level of noise from your plumbing during the operation. We thank you for your cooperation to ensure a successful installation. No road closures are to be expected during this work and any areas disturbed for this work will be restored.

Although not expected, **if at anytime you experience issues while the work is being performed** or have any questions, please contact a project representative listed below as soon as possible.

Every effort will be made to minimize your inconvenience. If you have any questions, please notify one of the Project Contacts listed below.
